

# Liberty Wireless Nursecall

ENS Liberty is a Wireless Nursecall System which fully complies with BS 6799 Class V1. In addition to providing a fully monitored and reliable emergency call system the ENS Liberty also benefits from integration with WiFi messaging to smartphones and seamless operation with Demetia Safe light guidance and fall management.

Typically the Liberty Call unit would be located beside the bed for the service user to call for assistance. The 2.5m Pear Push Lead when not in use can be located into its holster on the wall beside the call point.

Assistive Technology devices can be plugged into the monitored Jack Socket on the Call Point to further enhance the Nurse Call system. A double adaptor enables two devices to be attached (e.g. Enuresis Sensor & Pear Push Call Lead).

The large orange "Staff-to-Staff" call button generates the next level of call indicating further assistance is required, whilst the red "Alarm" button indicates an emergency situation.

The green "Reset" button not only cancels a call once dealt with, but if no call is active can be used to indicate "Staff Presence" in the service users room for regular checks without generating a call. (call logging required)

The integrated Infrared Sensor allows remote activation using infrared keyfobs or pendants.

- Optional extra's for this unit to trigger an assistance call could be –
- o A pressure mat under a rug beside the bed
  - o A PIR (movement sensor) for when the user walks across in front of the PIR
  - o An epilepsy sensor for when a Grand Mal seizure needs to be detected

### Levels of Call:

- Resident Call
- Reset
- Staff-to-Staff Call
- Staff Presence
- Emergency
- Low Battery
- Lead Removed

Width 99mm  
 Height 100mm  
 Depth (inc bracket) 38mm

### Technical Specification:

- Reassurance LED and comfort tone
- Factory set unit identity plus fully supervised monitoring
- o Conforms to BS6799 Class VI
- o Effective radiated power: 10mW integral aerial, approved to MPT1344 (licence exempt)

- Backlit LCD 2 \* 20 Characters
- Plain English text
- 5mm High Characters
- Silence Button
- Function Buttons
- Day/night Keyswitch to change the operating mode
- dimensions (H=11cm; W=15cm; D=4cm)
